

Relay For Life Team Goal Setting Tool

Use this tool to help set your Team's Fundraising Goal. As a team, determine how much money each person thinks they can raise as an individual (not online), how much they can raise online (both of these goals can be based on how much they raised in previous years), how much your team thinks it can raise in pre-event Fundraisers, on-site at Relay and Post-event Fundraisers. Add all this up and you have your Team Goal!
